

Donald Kunkel

My name is Donald Kunkel, Watson College Director of Information technology. I have been a member of UUP for 36 years and an active member of the UUP Binghamton Chapter for over 20 years. I have served as the chapter's Vice-President for professionals and am currently the chapter Membership Development Officer, a local union rep., and a chapter delegate.

As the chapter's Member Development Officer, I have the opportunity to meet with new employees and welcome them to the campus, many of whom have never been in a Labor Union. I feel it's essential that new employees understand the benefits of being represented by UUP. Our contract outlines our terms and conditions of employment and that our members are treated fairly and respectfully.

As a current professional delegate representing the Binghamton Chapter, I am asking for your vote so that I may continue as your delegate. I will serve as your conduit to the delegate assembly representing the Binghamton Campus.

Thank you,
Don
