

Troy Norton

I am a diligent and empathetic advocate with a particular sensitivity to workplace issues and labor-management relations. If elected, I would be honored to work individually and collectively with University employees to hear our stories, including highlights as well as concerns, and bring those to the table when negotiating policies and rights that work for us all. I have experience in workplace organizing best practices and service as a union representative for my department, and I would be dedicated to further advocating for my peers and amplifying our voices. Please feel free to email me at tnorton@binghamton.edu if you have any questions or would like to chat.

Thank you, and in solidarity,

- TN
