Special guest Jamie Dangler, the statewide VP for Academics, will be joining us to present on UUP’s preliminary data from a salary study of the New Paltz Chapter by the UUP Research Department. The purpose of this discussion is to shed light on the following issues -

• salary compression
• inequities
• comparisons of the salaries on our campus with similar titles at other SUNY schools and national averages

The information will be used in one of the upcoming steps of our contract implementation, involving the development of formulas to address the issues being faced by all SUNY campuses. Come learn more about how this process will work, and to share your insights, ideas, and concerns!! Food and refreshments will be provided!
